(Plus, I'll Reveal Exactly How You Can Save Yourself \$97.00 In The Process!) I bet you're thinking this is a sales letter, aren't you? If you are, you'd be wrong! There's no doubt about it affiliate marketing sounds easy, but it's actually pretty tough! Affiliate marketing is the only thing about website building you can't fake ...either the clicks are there, ...or they're not! And when they're not, the checks are small! In case you don't know what affiliate marketing is I'll give you a very simple explanation and show you how you can protect yourself easily and for FREE! Affiliate Marketers can earn huge commissions by promoting other people's products or services. If you have a website and wish to make money without having to develop products, or build complex technology of your own, affiliate marketing allows you to make money by simply promoting other people's products and/or services in return for a percentage of the commissions. It is an effective way for you to make money with your web real estate. If you advertise your own products online, affiliate marketing is an efficient way to generate additional monthly passive income. It's a very cost

effective form of advertising for merchants, a way of extending reach to more and more customers. You may not be aware of this problem, but if you promote any affiliate program, it is almost certainly costing you a substantial proportion of your commissions. The problem starts when instead of simply clicking on your affiliate link, a customer copies the link into the Address field at the top of their browser and modifies the link before using it. This modification comes in two forms - Chopped Links and Stolen Commissions.

To illustrate this, take a look at this typical affiliate link:

somethingbuttonpublishing.com/affiliates/t.php?rid=20754 (Use your own affiliate link here if you like :) ... remove this pink text. This link is an affiliate link for "Push Button Publishing" and, as you can plainly see, the affiliate ID is 20754. The Chopped Link For no good reason, other than simply to stop me from getting commission, a surprisingly large number of people will chop off the affiliate part of this link before using it, leaving just somethinbuttonpublishing.com. Which Leads To... The Stolen Commission Some people will sign up to the affiliate program themselves, then change the '20754' to their own affiliate ID before buying the product. The result is that MY commission gets paid into THEIR account. This is common for products sold with high levels of commission, such as most ebooks, software, membership websites, and so on...

The Bottom Line Is This... You're Losing Money!
