

Mp3 Beth Lodge-rigal - Follow Me

[DOWNLOAD HERE](#)

A wonderful voice, slightly husky, able to move in an instant from a Suzanne Vega whisper to a full-throated bluesy growl...an expressive songwriter, an auspicious debut. 12 MP3 Songs FOLK: Folk Pop, FOLK: Modern Folk Details: a gorgeous album...interesting songs about real people in varying phases of life...After listening to Follow Me, I look forward to seeing Beth perform. She has a promising future. - (Sing Out Magazine) If "Follow Me" were a solo acoustic album, the songs would be worthy of note. As it is, the talented line-up of musicians who worked on the project gives them a platform from which to shine in full glory. This is the treat you didn't know you were waiting for. - (Bloomington Voice) Sometimes the most luscious scenery is viewed from your back porch. Count Bloomington-based Beth Lodge-Rigal in that category. Her music is lush and feels close to home. These are gentle songs with confidence and sturdiness to them...a wonderful album of fluid music and lyrics with a point to them. - (Indianapolis Star)
