an inspirational, entheogenic ritual album; melodic electronica with progressive elements 12 MP3 Songs
ELECTRONIC: Trance, ELECTRONIC: Dance Details: The notion that we can change our biology through meditation and also through music sparked an interesting title for this pseudo-tribal electronic blend of rhythms and sweet melodies - a picturesque journey into the depths of human feeling - which may actually change your biological being! Track descriptions: "Become" is a spacey melodic introduction that easily gets us geared for the bright and beautiful landscape of "Celestine Rhythm" - heading into the building mountains of "Phosphor" and the climbing "Novasphere", swiftly evolving into the tribally-excited "We Create Us." A vocal appearance by Emmanuel and Dana B. on "Flight of an Angel" which is a dynamic tune about twin souls. Emmanuel then lays down two more enriching vocal jams- "Happy Frontier" is about happiness and vibrational body frequencies, while "Voice of Ra" contains esoteric knowledge and an adaption of Allister Crowley's 1904 work "The Book of the Law"-- then a saga begins with the "Timeslip", 3 tracks with over 20 minutes of ambience, tribalism and beauty.

Music2changeURdna2 ends with outgoing messages from Emmanuel in a soothing electronic/guitar hybrid. Emmanuel has been creating electronic music since 1992. In 1993, he attended Carnegie Mellon University's Summer Pre-college Program for Composition. He also attended Penn State University and received a diverse education of philosophy, art, music and physics. Emmanuel performed under the various aliases of: Kid Ritual, Diocletian, Baby Blue or dj Blue, but now just as Emmanuel.
