JINN's second release on Niobium... Check out the first "JINN: The Vision Infinite" also on cdbaby.com

Pretty sure there isn't anyone like JINN out there in your town. Sounds vaguely like a blend of Santana during his Carvanseri days over slamming East Bay funk mixed with acid hip hop beats. Great tunes for dancin, drivin and partying with your crew or lover. Takes it beyond funk to an external reality where body and mind merge with dafunky sound. ALWAYS ON SALE as part of cdbaby.com's "3 cds for \$15" deal.
