

Mp3 Nemesis 3 - Scream As Needed

[DOWNLOAD HERE](#)

Good Solid Rock with unbelievable Vocals. A must have for Hard Rock fans. Echoes of Incubus, Linkin Park, Hoobastank, and POD while weaving an original take. 12 MP3 Songs ROCK: Hard Rock, ROCK: Modern Rock Details: Since their beginning in 1998, NEMESIS 3 has continued to grow while changing for the better. Defining the area's new hard rock sound they are constantly honing their writing skills while always keeping the music interesting. Their writing style is distinctive with multiple types of tunings and intricate rhythm patterns introduced for each individual song. It is not just straightforward 3 chord Rock and onto the next song. The power behind the songs lies not only in the hard driving chord and tempo changes but also in their thought provoking lyrics. Just when you think the band is on a hard rock frenzy they will change up with the occasional acoustic rock ballad in honor of 9.11 or something similar keeping you glued to the show! Currently signed with Frog Scorpion Records (Ohio) the band's first CD titled "Scream When Needed" hit the street in April 2004, selling hundreds of copies out of the box! Founding member Marc Wasmund delivers the tight guitar licks coupled with soaring solos and strong harmonic vocals. Writing lyrics from the heart and mind he makes you think, feel, and hear the meaning of each song while punching you in the face delivering a powerful voice seemingly out of nowhere. Although a power trio at the present time, Marc's voice is truly the 4th instrument. With a background in keyboards and drums Marc has been writing and playing music since the age of 10. While the original 3 members of NEMESIS 3 were searching for a dedicated drummer, Dann Singer left his mark quickly with one audition. It took Less than 1 hour of his killer drumming to seal his spot with the band in August of 2001. Dan has played an integral role in the writing and development of the band since entering the picture. Dann's energy and driving beat behind the kit only amplifies the sound and stage presence of N3, giving the crowd an additional show within a show. Previously a 4-piece act, the band went through another round

of personnel changes in spring of 2003 with Marc and Dann left to figure out the future of N3. Purely by coincidence, Bassist Steve Rowland fell into the hands of N3. Having seen the band play at numerous shows in Ohio, Steve was very familiar with their sound and loved their stage presence. When approached by the band to audition, Steve gladly accepted and after only 2 "sit in" rehearsals became a permanent fixture in April of 2003. After keeping a "close eye" on the band to see what direction they would take, Frog Scorpion Records began talking deal after the band emerged on the club circuit once again as a true hard rock trio. Although the band will be a 4 piece again sometime in the future, it was the "HUGE sound" and consistent attendance of loyal fans at gig after gig that persuaded the label to make an offer. NEMESIS 3's debut CD "Scream When Needed" was produced by Jeff Marginean. The release has 12 tracks and was mastered in NY by Ted Jensen who has mastered the likes of Creed, Pearl Jam, and MANY others! The first single "She Said" will be released to radio stations in Summer 2004, and the Band will be at a college or stage near you in the near future for thier "Scream As Needed Tour" supporting the release
