

Mp3 Political Suicide - Pop: Power Pop

[DOWNLOAD HERE](#)

Retro-chic Heartland Pop-Rock: guitar driven with drums featuring prominent male vocals. 5 MP3 Songs
POP: Power Pop, ROCK: Classic Rock Details: Framed by banging guitar driven figures, channeled by
pounding drums pulsing bass rhythm, prominent vocals passionately present thought provoking
conversational lyrics ... each song emotes a story. This CD could be longer but not any better. Don't be
surprised if you find yourself listening to this little gem week after week for a long time to come. Each
song is a "single" in it's own right. The variety between tracks makes for interesting fare while the familiar
heartland Pop-Rock forms fit nicely in the collection. Four singer/songwriter/musician friends joined forces
with a single unified goal: create and record the finest modern music possible. Five years, four producers
and several live audiences later they rested their case. This five-song debut CD is forged from their blood,
sweat, tears and lots of laughs. Each producer involved is nationally renown -- they certainly performed
excellent craftsmanship here. This collaboration is reminiscent of early underground FM radio airplay:
album oriented, energetic, broadly appealing and refreshingly different -- both unique and familiar.
