Mp3 The Epidemics - Giving Site To The Def

DOWNLOAD HERE

Hip Hop by underground 18 year old white kids from Pennsylvania. It's rap twisted with suburban flavor. 18 MP3 Songs HIP HOP/RAP: White-Boy Rap, POP: Party Pop Details: Welcome everybody. We are The Epidemics and we are a hip hop group dedicated to satisfying everyone's listening needs. The members of our group are Flawless Frank and Breezy Bran. We are a very diverse group who base most of our lyrics on what every typical teenager is thinking throughout their life. We rap about girls, partying, getting in trouble, staying together as a strong unit, and pride in your own personal desires and dreams. We have been rapping and producing music for over 3 years. We started out by just fooling around and freestyling in the car and mall. We have grown to independently producing our own album and building our own home studio located in Lansdale, Pennsylvania. We have dreams that will one day be accomplished. We are currently working on new material every chance we get and we hope everyone will buy a copy of our cd and enjoy it. Don't be hesistant to check out our songs and get an idea of what we are. I hope you like everything you hear and I'm sure you will see our faces doing something bigger one day.
