Acoustic techno/dance 12 MP3 Songs ELECTRONIC: Dance, EASY LISTENING: Mood Music Details: This is the fifth TK Wizard CD! Its a jammin one with acoustic excursions into space and time. True to the TK Wizard sound, theres an abundance of 6 string and 12 string acoustic guitars. Electric guitars were added sparingly when needed to spice up the tracks. In fact, the first electric guitar doesnt show up until the 5th track Jesters Romp. Here it is used as melody, backing rhythm, and lead. Theres a brief electric guitar loop on Slidin On The Sly. Some more electric rhythm on The 8th Charm and Queen Of Broken Hearts which also has a short electric lead. The closing track Goodbye Groove has an electric guitar lead with no acoustic guitars. Thought it might be an interesting switch. Now, back to the jams. Be sure to check out track 2 Dance Of The Fireflies which has one of the best TK Wizard jams ever! On track 7 Slidin On The Sly theres a jam near the end featuring various percussion instruments such as congas, shakers, and cymbals. The acoustic guitars were also used as percussion instruments like drums by tapping on the guitar bodies and muted scraping of the strings. Starlight Waltz has classical guitars added. On Wicked Pulse the acoustic guitars are filtered through effects such as chorus for the weird sounds. Also, there's an effected lead acoustic guitar on "Arping Out" so try not to freak out. Queen Of Broken Hearts is a rumba and features saxophone. And theres more sounds to discover on the other tracks so Ill let you listen. Have fun! Terry Kempler Please note: This CD was professionally recorded, mixed, and mastered in digital format.
