Upbeat, imaginative, fun-filled children's songs that will have your kids playing this CD repeatedly. 5 MP3 Songs KIDS/FAMILY: Children's Pop, KIDS/FAMILY: General Children's Music Details: Children's singer/songwriter, Yosi, has been performing his interactive, imaginative fun-filled young children's concerts at schools, camps, libraries, festivals, parties stores since 1996. He started by singing a few traditional kid's songs at his daughter's nursery school for his daughter and classmates to enjoy. Soon after he discovered an ability to write children's songs, and engage well with young children. Yosi's new CD, "Little Kitty", samples five of his original songs that are requested repeatedly by children at his lively sing-along concerts. "Little Kitty" has gained recent national distribution by a well known children's toy store. His live performances are humorous, engaging and interactive. Children (and parents) often find themselves listening to Yosi's CD continuously at home, in the car, at work. Yosi is a 34 year old, married, father of three children. A daughter (now) in third grade, and twin boys in nursery school. He is fully trained and licensed as a psychologist, but prefers to perform and record children's music as a full time profession. Yosi feels that he has been extremely fortunate to find something that he loves to do that brings joy to so many children parents. His music conveys the message of family togetherness, enjoying the gift of daily life, and (of course) being silly at every chance.
