

Mp3 Agua Dulce - Searching For Juana

[DOWNLOAD HERE](#)

Southern Cali's funky salsa ghetto soul. Check Out New CD "We Got The Bomba". 10 MP3 Songs
LATIN: General, LATIN: Salsa Details: (Also Check out NEW CD, "We Got The Bomba") Agua Dulce releases their long awaited new Cd "Searching for Juana". This ten-track album consists of a strong variety of Latin and Caribbean rhythms mixed with modern funk, soul, and a dash of hip-hop. The variety carries over into the melodies and song lyrics sung in both English and Spanish. Not a common mixture seen in today's popular music even with the emergence of a new "Rock en español" and Latin explosion, very few acts attempt to sing in both English and Spanish. Agua Dulce not only accomplishes this with grace and precision, but also stimulates a natural feel that relaxes the listener to truly enjoy and appreciate this outstanding Cd. Searching for Juana not only reflects the talent and versatility of the group, it takes us through a journey of many places. This C.D shows us that the future and the success of Agua Dulce is inevitable. Years of practice and study have attained the group respectability amongst the best musicians in Southern California. Agua Dulce wishes to bring this energy to the rest of the world by sharing the new C.D with everyone. The group is pumped up about their new release, with a new 15 passenger band, their own label "No Mames Records", a trip to Japan in October, a three week tour scheduled and playing in one of the biggest music festivals in the country "Street Scene" there is no denying the future looks very promising for the next Big act in music.....AGUA DULCE!
