...an exciting, visual experience of great classical music. 11 MP3 Songs CLASSICAL: Traditional Details:

This CD offers an exciting perspective to the classical listening experience. Featuring works by Mendelssohn and Rachmaninoff, the performance is taken from a live concert and includes tracks with oral commentary about the music. Accompanying the CD is a booklet with interpretative paintings for three of the musical selections. I really enjoyed your playing, and the visual images in the booklet while listening. It is truly remarkable. Anne in Seattle C'est trs interesse! (It's very interesting) Joyceline, France
