Punk Folk - a style that answers the immortal question: if you ate your own hand, would you gain weight or lose weight? 11 MP3 Songs FOLK: Folk-Rock, ROCK: Adult Alternative Pop/Rock Show all album songs: Pseudo Placebo Songs Details: Pseudo Placebo is one of two releases I have for 2008 (the other being Choppa City) and it's the "folkier" of the two. About half of these tunes are just me an acoustic recorded directly to 2-track which means much tea with honey was drank during these sessions! I've always liked the idea of doing multiple releases, each one representing a specific style. This is especially true since I cannot pin myself down to one particular genre (as evidenced by my 2002 release, Where I Am). So anyhowots, give the samples a shot. If you're a punk-folker like me, I'm certain most of them will strike your fancy.
