Davi takes you inside his head with this mood-shifting rock debut. This is music at its most unpredictable, honest and vulnerable state. 14 MP3 Songs ROCK: Modern Rock, ROCK: 90's Rock Details: Free-Form was recorded at different locations around the U.S. with a keyboard, a few guitars, a bass, random percussion instruments and a 4-track recorder. Despite limited resources and funds, Davi delivers an album that has an amazingly professional sound. The process of compiling different songs from the many recording sessions held throughout the years caused Free-Form to take almost three years to see the light of day. Now that it has finally been released we have access to an album that is filled with moody songs, intimate feelings and dark melody structures very common in Davi's music. The album's diversity may throw the listener off a bit because of the extreme mood shifts from one song to the next. Listen to Free-Form in sections, start at the end if you have to or listen to the more radio-friendly songs first: 'The Top of the World', 'Calling Mary' and 'Living in a Dream'. It's not an easy album to catch on to because of its psychologically complex and dark nature, but once it's in your head you won't want to put it down. *For more on Davi visit: prounderground.com
