COUNTRY: Country Rock, COUNTRY: Country Blues Details: Audiences cheer when

Singer-Songwriter-Guitarist Dodie Pettit picks up her electric guitar and rips into a solo. Her second solo CD "Playin With the Boys" also recorded in Nashville, certainly shows off that side of her as it takes a

definitive turn towards her rockin country side, even with an up tempo blues thrown in. Dodies

background in playing in clubs and bar bands around the country certainly shows in her playing, her

stories and her biographic title song. Comments from the Industry: "When you look up the word

excellence in the dictionary, youll find a picture of Dodie Pettit. Excellence is gained through experience, hard work and knowledge. Dodie has all of these qualities. One of the finest singer/songwriters Ive seen

in years." -Joe Wood RDR Music Group CCMA Board of Directors "Dodie on lead vocal and lead guitar,
