Acoustic Jazz, burning with melody and rhythm 9 MP3 Songs JAZZ: Traditional Jazz Combo, JAZZ: Bebop Details: One of the tracks from this recording "Circle of Friends" best describes the group on this CD, ERNIE WATTS QUARTET. Watts has been playing with these musicians so long, they maintain their musical connection effortlessly. They often don't need to communicate in words. And these four players have personal, as well as musicAL ties -- they are family to each other, which adds another dimension to the music. As Ernie says, "We have history. When you play with the same people for a long time, the music evolves organically into a group voice, rather than four separate voices. Instead of playing music together, we become music together. This is a real band" ERNIE WATTS QUARTET brings "Spirit Song" to life!
