Very cool guitar with sizzle radiating peace and tranquillity. Music to make Love by. 9 MP3 Songs JAZZ: Smooth Jazz, JAZZ: Jazz Fusion Details: Contemporary jazz guitarist Federico Guillermo has released his fourth CD " Peace Forever". "Peace Forever" contains nine original compositions penned by Federico and recorded in his home studio in Cadyville, NY. Photos of the Saranac River in Cadyville grace the CD's covers. "The world seems different since my last CD Blue Rico, released in the spring of 2001. I know my life is different since that spring I have been making a living giving guitar lessons at St. John's School in Plattsburgh, NY and in my home in Cadyville. (Not many gigging opportunities in these parts) One of my compositions from Blue Rico "Breath" was picked up as the theme for a radio call in program in Melbourne, Florida, and "Embraced Joy" another original tune has become a favorite of local DJ. Saving the best news for last I met a wonderful lady that same spring on the Internet, she was then a math professor living in Columbia, South America; now she is my wife and one of the songs on Peace Forever "Helena" is dedicated to her. "Peace Forever" was recorded over Thanksgiving break in 2003, I felt a need to release these songs and move on to new material that could not blossom until I had harvested the present crop. Oh! Almost forgot; I got an XM satellite radio last summer and that feeling of joy that I felt as a boy in NYC being able to hear a world of music at the turn of the radio dial is back , thank God. Yes, the world is different since the spring of 2001, we need to express Love "Mi Amor" endlessly "Forevermore", not endless war " Dubya Dubya III" and we need to be "Choosing Love" shedding "Tears Of Joy", practicing "Pre-Emptive Love" and telling the "Truth" and most importantly "Peace Forever".

Peace Forever, Federico
