Eg; Country, Mild rock, instrumental guitar. Larry plays all the instruments on his CDs and does all the vocals."I like to put a little humor in some songs. I love to see the grin happen when someone hears a song like Country Dream Machine. I believe every song has to do something to a person! Songs that let you feel a brand new emotion are very special.My CDs are like a "box of chocolates",you get a taste of everything!I am looking for music lovers who like to "graze" in different places musically.A couple of the songs on this CD are a little humorous,but "Johnny" and "December's Flowers" run deeper splashing bits of truth across the notes"
