KEY TO THE VARIATIONS: SIMPLE, SHORT SWEET Variations on these classical standards demonstrate how much is possible when you work with truly great music. Piano selections by Bach and Mozart feature simple note to note modulations with key changes, melody line variations and the like. As a result we've created much shorter yet beautiful versions of otherwise longer renditions of the original scores. CLASSICAL WITH A CLASSIC MIX: Renditions of Amazing Grace, O Solo Mio, Danny Boy and Aura Lee are also part of this collection. Some may consider this an example of mixing Apples with Oranges, but all great fruit comes from different trees, and we picked from the ones that sound the best. RELAX HEAL Life runs at a fast pace. These very selections have been used for years as a means of comfort and calming after a day's drama. If you believe, as we do that good music has a healing effect, you'll better appreciate what this simple collection has to offer, mainly an enjoyable listening experience that's gentle on the ear and healing to the

sprit.
