An accomplished composer and performer with many years experience, Luke sent ripples of excitement across the dance floor the first time he dropped one of his tracks at The Peoples Party 2005, in Northern NSW Australia. He has since played at countless parties, clubs and festivals alongside some of the most established artists in the world, and released music on compilations from U.P Records and Bio-Sine Records, and also his debut album Faerie Spell in 2007 on Fowl Play Records. Lost Keys combines styles and sounds from progressive trance, funk and electro, through to more full-on psychedelic trance. With this unique, infectious sound, Lost Keys delivers to the dance floor a fun, warm vibration. His music is generally upbeat and funky, with glassy guitar lines, fat proggy breakdowns, and cheesy melodies (not afraid to say!), whilst maintaining a dark twisted psychedelic element, carefully designed to bring people together to move as one, and enjoy the magic of sound.
