From southern to samba, Simplified blends multiple genres to create a sound that is bold in musicianship and highly addictive. 7 MP3 Songs POP: with Live-band Production, ROCK: Jam-band Details: Simplified is a band living in it's own dichotomy. Though the name implies a low-key approach to their music, they are, in fact, anything but. Each member hails from a unique set of influences and disciplines, thus enabling the 'Simplified' sound to incorporate flavors ranging from rock, jazz, reggae and country. Every song weaves memorable vocal hooks and bold musicianship into an addictive visceral experience. Simplified began its osmosis in the summer of 2001, when Clee Laster and Chris Sheridan started to trade acoustic musical riffs in and around the Charlotte music scene. Clee's soulful voice and skilled rhythmic jamming balanced perfectly with Sheridan's incredible talents on guitar, making a truly memorable acoustic pair. But they had something bigger in mind. The duo began to seek out other musicians. Soon, they found their next musical soulmate in bassist Chris Lynch. With an ear for backbeats and a unique, laidback style, Lynch brought his unforgettable groove to the sound. The trio instantly clicked and began to seek out the final piece of the "Simplified" puzzle. Enter Tim Lail. After an exhausting search for the perfect percussionist, Tim made his beat heard. A seasoned percussionist with an enigmatic presence behind the drums, Tim forged the backbone of Simplified with rock solid rhythms and flavorings of world beats. It was now December of 2003, and the quartet was finally complete.
