Kweevak.com "Her tunes show formidable songwriting talent" Music Connection "You can tell this is a labour of love. There is such a wonderful energy and honesty in the lyrics and music. Sonically, it reminds me of my favourite singer/ songwriters Jonatha Brooke and Paula Cole. Edgy emotional and passionate storytelling that doesnt take the easy road. Sometimes she sends her listeners to swim in an ocean of pain, but she always throws a lifeline of hope to hold on to. Very positive and uplifting vibe." Steven Stewart The Album and the Artist: Stacy Golden has been described as "a formidable song writing talent." The songs are a sophisticated, lyric driven pop that twists through genres with soaring and soulful melodies that turn through harmonic surprises. She writes songs about life's journeys. They talk about love, life's everyday frustrations, people you meet along the way, growing and finding yourself, and ultimately finding hope in every situation! And she sings each song with the conviction of the life experiences that inspired the songs. As a scholarship and award-winning student at Boston's prestigious Berklee College of Music, she spent her college years immersed in music. She was also recognized twice by Billboard's Annual Song Contest for her song writing abilities during that time. Los Angeles was her post-college destination. Shortly upon arrival, she produced a 4-song EP and began

taking her music to the streets. As a result, Stacy has been carving out a reputation as an artist who has something to say and great music to back it up. She performs regularly both solo and with her band. She recently produced and released her first full-length CD, Thin Wire Walk. At the heart of the CD are the songs and the careful production that bring the songs to life. Since its release, it has been gathering steady praise. She recently partnered with Synergy Distribution to make Thin Wire Walk available in major retail outlets throughout the U.S. and major music internet sites. The CD hit the streets nationally on July 6, 2004. To find out more about Stacy and her music and more complete bio information, visit stacygolden.com
