Mp3 Artist in all Australia releases 3rd CD--"DESERT FEVER BRIGADE"--and guess what--the envelope is pushed YET FURTHER!!! Adding to the Jewish politics and unorthodox songwriting, production and instrumentation of his first 2 releases, 2002's BAD'LANIA RISING and 2003's JEWISH LIGHTNING, Steve Lieberman now adds the FIDDLE, MELODICA and ULLEAN CHANTER to his already unusual arsenal of punk instruments, the flute, trombone and shahnai accompanying his oVERDRIVEN BASSES--No Guitars-folks. And guess what-- he now also fuses dance music--that's right--drum 'n' bass, techno all that to all the other genres as punk, industrial, folk, prog to have now a totally unclassifiable yet quite danceable experimental fusion-- Steve Lieberman is now not only the most controversial artist on the mp3 scene-- but now also the most interesting on every level. DESERT FEVER BRIGADE proves just that
