It's the sound that comes out of san francisco fun melodic pop, interesting lyrics, sometimes brit pop sometimes americana. Think neil young meets blink 182. Good energy and a great set of individual songs. 11 MP3 Songs POP: British Pop, ROCK: Americana Details: at the time this bio is being written we are an unsigned band... just did a demo for reprise records and had a blast! we like to say that we are fun and write good pop/rock songs. we tried to make this album an experience from beginning to end with lots of different songs that compliment each other.. sometimes a little up beat and sometimes a little moody... sometimes electronic and the last song is just matt and his acoustic guitar. a few good songs for parties a few good songs for sex and basically a little peak into our world here in little san francisco in the late 20th century early 21st century. enjoy the cd and check out the website... maybe we'll be playing in a town near you....:) VIV LATEST TOUR UPDATES!!!
