

Mp3 Circe Link - One Drop Of Poison

[DOWNLOAD HERE](#)

Circe Link will entice, delight and treat you to a sound she likes to call Cowboy Jazz. 12 MP3 Songs

COUNTRY: Country Blues, JAZZ: Swing/Big Band Details: Circe Link's new record One Drop of Poison is a cohesive blend between her first recording More Songs, an innocent low-fi often bare bones production, and Let's Go Together he second release a slicker more detail oriented endeavor. One Drop of Poison has the organic appeal of rich and warm acoustic guitars, the ever present upright bass, an unusual addition of clavinet, smoking violins and the spell casting voice of the artist herself, while appealing to a standard of sonic skill and songwriting rarely seen but more than appreciated by all who have had the pleasure.
