Electronic modern pop rock 7 MP3 Songs POP: with Electronic Production, ROCK: Modern Rock Details: The beginning of Groundbloom dates back to 1996 Elizabeth, New Jersey. It wasnt until the year 1998 that I found a musician who would later stand by my side and help me transcend the boundaries of what I thought were possible through making music. A musician who was willing to take risks and accompany me on this musical journey. What took place over the next several years can best be described as a building period Writing. Composing. Recording. Producing. Engineering. Designing. 2 musicians/friends from Elizabeth with one vision. Being able to share creation with an all inclusive composite. Sights approaching the love of creation rather than those involved in the power of the all too trustworthy dollar. 10 years from its inception we are proud to present the debut of Schemas. A collection of 7 original songs independently written, recorded, produced and engineered by Groundbloom. Nuno Piano, Midi Jimi Vocals, Guitar Thank you for your continued support. Side by side we stand
