Classic honky tonk, full of alcohol and heartbreak, slurring redemption, and plans to get up off the floor tomorrow and win back your love, just as soon as this pitcher is empty. 15 MP3 Songs in this album (47:01) ! Related styles: COUNTRY: Honky Tonk, ROCK: Rockabilly People who are interested in Johnny Cash Hank Williams Buck Owens should consider this download. Details: Honky Tonk-itis is honky tonk served the way it used to be: tunes about losers and failures and drinkers who come to the bar to lick their wounds and dream of getting back on top again. This is what honky tonk was for musicians like Hank Williams, Ray Price, Faron Young, George Jones and Johnny Cash. Somewhere along the line that image got lost, Country music got "prettified" and the whole concept of music for losers got flushed from the bathrooms of our hearts. Honky Tonk-itis brings back that honky tonk music your grandpa and daddy listened to when you were a kid; whether it's loving odes to your favorite beer (P-B-R my A-S-S), commiserating over a lost love at the bar (Pour Me), or fighting to take life by the horns while holding a half-empty bottle (Heavy Lifting Calls For Heavy Drinking), Honky Tonk-itis brings back the glory days of life spent plugging the jukebox while hiding from your old lady in a smoky old joint down the block.
