A soulful collection of songs with much more depth than your average serving of R&B/Pop crossover. This talented vocalist has been described as a bluesy Erykah Badu with a marvelous voice that begins in the smoky lows of Norah Jones, and effortlessly climbs into the powerful, confident ranges of Lisa Stansfield. A native of Bors, Sweden, Johanna moved to Canada in the mid-nineties and now makes Calgary home. She began singing professionally in her early teens and has since that time carved a large and loyal fan-base in and outside the region with her live performances, receiving radio airplay in Canada, the US and the UK. Johanna's critically acclaimed solo album has been receiving rave reviews from around the globe. Good Life is a sizzling indication of who Johanna is and shows that her passion for music is bold and her dedication is undeniable. "Thank you for dropping by my CD baby page and for showing your interest in my music.
