Original poetic lyrics and melodies in a folk style with soothing vocal lead and harmonies, fingerstyle guitar and additional instrumentation. 16 MP3 Songs FOLK: Modern Folk, CLASSICAL: Contemporary Details: "Summerhill Dreams" is a collection of fifteen original songs chronicling twenty-seven years of ponderings and mind wanderings. Recording of this album project began in August of 1999 as a labor of love for family and friends. The songs took on a new dimension when Kurt Tietz, arranger, producer and sound engineer worked with me to enhance the existing piano, vocal and guitar scores with instrumentation. I am active in church music ministry and perform throughout Southeast Missouri where I reside. Being a full-time teacher of academically gifted students, wife, and mother of three enriches my life and gives me much to write about. I hope you will take this musical meander with me. I'm not sure where you will find yourself in the music, but I hope you will find yourself in there somewhere...
