[DOWNLOAD HERE](#)

A duo harp performance fulfilling a dream of recording this album of original compositions for several years, so at last we found the path to make Harpspell a reality. 7 MP3 Songs NEW AGE: New Age, CLASSICAL: New Age Details: Original compositions performed on two medieval style harps. Beautifully intertwined arrangements, at times dynamic and bold and at times soothing and meditative, performed on Troubadour harps. We are husband and wife harpists who have been performing since 1976. We had no music background, only a fierce desire to play music. After trying several different instruments with no success, our deep yearning led us to a Lyon-Healy Troubadour harp, a medieval style harp. We called a harp teacher and asked if we were too old and did it matter that we couldn't read music. She said no so we started lessons. Thus began our adventure with our harps.
