BIOGRAPHY BIOGRAPHY OF Enorris JOHNSON (A.K.A. Cindo) My name is Enorris Johnson. I am 50 years old and I am a professional Logistician. I have been married to my high school sweetheart, Elizabeth Johnson, for 32 years. We have two daughters, Eukrina and Enesha, and one grandson, Jevin Jones. I was a Disc Jockey in the early seventies through the early eighties. I have always had a fascination with music. I attempted to start a band in the early seventies while I was in the military; however, I wasn't successful because the other potential band members weren't committed. When my daughter asked me to help her with her singing I was more than happy to do so. While she was taking vocal lessons, I procured some software and started to write songs and create music. We started a web page and submitted our songs on Acid Planet under the name of Enesha and Enorris. I have been writing, singing, creating music, and producing songs with my daughter, Enesha, for about four years now. This love I have for music and poetry has kept my daughter and I very close. I was the Lyricist Featured Artist for August 2001. I met Gary Lee (AKA Lefamu) in 2001 on the Internet. Since that time, Gary has become a very good friend of mine and is featured on our CD project. Gary is as close to me as any family member and is a member of our group. He has been very helpful and has inspired me to continue to strive for excellence. In December 2002, we added a Rapper George Nnaife (AKA A'Pollo) to our team and in October 2003 I started my own record label, EJAYS Productions and has subsequently released my first CD project, "The EJAYS". We have also established a website, soundclick.com/bands/2/theejays.htm and an email, cindo@worldnet.att.net. At first, it was just something that we just played around with; however, I grew to love singing and knew that it was something that I wanted to do. When my dad realized that I really wanted to be a singer, he told me that I could be anything that I wanted to be. My parents encouraged me to pursue my dream.
