Easy-listening vocal jazz - standards (Gershwin, Porter, Carmichael) and new (Wildhorne, Manilow, Eastwood) 12 MP3 Songs EASY LISTENING: Crooners/Vocals, JAZZ: Smooth Jazz Details: "Mellow" is so named because of the smooth vocals and nuances, enhanced by George Melvin's incredible keyboard work. What started out as a lark - a recording of a few songs as a Christmas gift for her mother - is now "quite suitable background music for a dinner party." Singing in a fundraiser concert with jazz keyboardist George Melvin reawakened Tricia's fondness for easy-listening jazz, which she thought she'd left behind ('way in the last century) with college jazz choir. Most of Tricia's performances since college have been cabaret-style concerts to raise funds for various organizations, and musical and comedy productions at a local theater.
