

The Earth Moved - Amy Stewart

[DOWNLOAD HERE](#)

Engrossing (The Christian Science Monitor), fascinating (TimeOut New York), delightfully nuanced (Entertainment Weekly), terrific (New York Newsday), inspiring (Bust magazine). You know a book is good when you actually welcome one of those howling days of wind and sleet that makes going out next to impossible (The New York Times). The Earth Moved has moved reviewers across the country. In witty, offbeat style, Amy Stewart takes us on a subterranean adventure and introduces us to our planets most important gatekeeper: the humble earthworm. Its true that the earthworm is small, spineless, and blind, but its effect on the ecosystem is profound, moving Charles Darwin to devote his last years to studying its remarkable attributes and achievements. With the august scientist as her inspiration, Stewart investigates the earthworms astonishing realm, talks to oligochaetologists who have devoted their lives to unearthing the complex web of life beneath our feet, and observes the thousands of worms in her own garden. Stewarts ease in gliding from worms to plants to humans will remind readers of John McPhees essays on canoes, oranges, the geology of America (Providence Journal). Stewarts book paddles along in [Rachel] Carsons wake. Read her book and youll start to see how the rhododendron bed in front of your house is a kind of Mars for frontier science (The Boston Globe). Author: Stewart, Amy Publisher: Algonquin Books Illustration: N Language: ENG Title: The Earth Moved Pages: 00240 (Encrypted EPUB) On Sale: 2005-11-03 SKU-13/ISBN: 9781565124684 Category: Nature : Ecology Category: Nature : Essays Category: Science : Life Sciences - Zoology - Invertebrates
