Tort law is one of the core areas of European private law, in particular in the field of business law. However, it often receives less attention than the well-known and widely published developments in the field of European contract law. In order to direct more attention to this important subject, an intensive Round Table discussion on the subject of the evolution of torts in European business law was held. The contributions to this volume reflect the results of the research undertaken by renowned European scholars and practitioners on central aspects such as competition law, company law and intellectual property. Each contribution particularly focuses upon the overarching tendencies and principles within the individual aspect of tort law, thereby directing attention to the future at European level of this essential area of private law.
