Hello!! My real name is Charles Tyson, a native of Washington,DC. In the music world I'm called 113360. It would appear from the many hits on the CD Baby web page people are feeling the music. My singing/songwriting is special and unique. The reason my music is special is because I wrote and recorded the music in prison. See, people don't know that I am in prison and that I've made some of the finest music in the U.S. under the disguise of 113360, which happens to be my prison ID Number. See I'm prisoner (113360) of the South Carolina Department of Corrections (SCDC), located at 610 Hwy 9 West, Evans Correctional Institution, Bennettsville, South Carolina 29512. It is the consensus of some in this state and in our country that people in prison are not corrigible that we are worthless. It is my goal to change this unconscious mind set with some of the best music ever written and recorded in any prison in the world. I want people to take notice that there is major talent locked away in State and Federal prisons. Untap talent that could be developed and marketed. All About Love is the first record that I put out from prison in 1995. It was design to put the public on notice that there was a special man of God in prison, an anointed man of God who was writing and recording some great gospel music. My growth in singing and making music in prison can be trace back to this piece. Get each album I did and hear me grow spiritually and musically. 1. All About Love 2.Re-Flesh 3. I Love You More. Next up is "LET THERE BE PEACE" you will be on your feet praising God!!!! Now you know the story behind this music. Forever yours 113360
