radio ready rock with guitar aggression 9 MP3 Songs ROCK: Acoustic Details: Covering radio tunes for years in local clubs, I decided to do my own record. The end product is aggressive electric guitar tracks that started as acoustic songs. In your face rock! Concentrating on no 2 songs sounding the same the entire record is worth the listen. Tell me if you have a favorite? When I buy a CD I love it when I like every song on it. If you are considering purchasing Its Just My Mojo, please do thank you. Irish Eyes Smile.
Peace, Cathy
