Mind Control Tips is the first release from Connie Lingus, makers of a unique sound reminiscent of three sows, two cows and a one-legged chicken beat over the head with a ball-peen hammer, then tossed in a meat grinder along with a chainsaw. 7 MP3 Songs COUNTRY: Country Rock, ROCK: Punk Details: Mind Control Tips is our first release. It's a 6-song Mini-CD EP that includes an additional 7th bonus-track that will not find it's way onto the regular-size version, which we'll be releasing after this baby sells out! See how crafty we are with our marketing? Dang! And here's a little bit about Us, Connie Lingus: Some folks say we play rockabilly and punk. Some folks claim it's bastard industrial. Still others, country and bluegrass. Then there's them there folks don't know what the hell. We say they all got it right. We're a rocka-punka-industria-bluegrass-country-billy steamrollin' nightmare straight outta HELL, TEXAS! Texas What-The-Hellabilly for short. Most of the time we sound bad on purpose. Havin' lots more fun that way.
