Healing-depends on your medical state,energetic,soothing,comical,pretty nuts,One third of total sale going to World Nature Fund,sang in Neandertal,English,German,Dutch and French. 9 MP3 Songs ROCK: Emo, ROCK: Progressive Rock Details: This is definitely something you've never heard before. Without Tarzan Jane never would have exist and the other way around. At the moment Cheeta is out hunting. Seriously it's easy to describe yourself. One of us is a mental heavy refuge from Sarajevo, the other is an inconvenient Dutch pudding by the name Moira. Mentally destroyed ex-philosofer meets childish belly dancer. Only cat-lovers can understand this album. Profound blues at the beginning sang by a retired factory worker. Gothic voice finds its way to "new wave door" collapsing after a climax into French Docusound. Walking on high heels is half glamorous half sentimental. Amir's huis in San Fransisco is a parody on Friday Night but not only that; it's something to be never repeated, Mickey Mouse would die for. Mr.Bleigh is comically, politically, foolishly dismantelling Great Britain of its egoism. What else do you want? Meet DIT; a blend of unexpected sounds, rhythms changing speed, half improvised melodies and songs that give you a hard time to sit still (this reffering mostly to new songs). DIT meaning This, this is who they are: - Gerlo ten Voorde started out as a guitarist. After becoming a drummer for the rock-poetry group 'Bird Lips', he now does the sound design for DIT. - Moira Mirck, an ex-dansacademy student, played violin in various bands with different styles, from hardcore metal to Irish folk. As a member of DIT, she playes basguitar and does the vocals. Singing is not the only thing she does with her voice, though. Like a journalist once wrote: 'she talks and shouts, she chirps and howls.' But of course she sings too... - Goran Konjicija, (drums and singing) is the leader of the band. Finding a band in Holland wasn't easy. So he got up from his thin buttocks and took a bus to England. A member of Dream Academy (known for a 'Life in Northern Town' hit and collaboration with David Gilmour) picked him up playing on the streets. So

he dragged himself again and did some session work at London Crouch hill Church Studio's. Deciding to concentrate on his own ideas he went back to Holland. And DIT took place. The media try to put DIT in a genre, like progressive rock/psychedelica, or wave, alternative, experimental, pop and even folk. But DIT call themselves Onzooi. In one year preparation and one year playing, Indie-debut came out which was very well received by Dutch critics. Currently it's a trio gigging mostly in little clubs in Amsterdam. The demo represents only partly the broad musical palette of this band.
