a unique danceable journey of harmony and deep meditation 11 MP3 Songs ELECTRONIC: Dance, ELECTRONIC: Trance Details: This album is a good recommendation for the electronic dance music listener with eclectic tastes. All types of emotions and integrations resonate through each completely different arrangement of sonic energy. Something for Everyone! Track descriptions: "Theta State" begins with a dark and deep meditation that eventually couples itself with a hypnotizing rhythm of synths and percussion. Then we find ourselves in "Konstruktor," another sonic hypnosis. "Bounce Like an Angel" beckons the trance gods and soars in a heavenly fashion. "Mystikai" summons the power of an epic-like trance build and release, whirling us around until "Starseed" takes over with its ambience and breakbeat science, but the dance continues with a melodic progression and climax. "Waterfall" then takes us through a misty evening tribal adventure. "Don't Let It" is a collaboration vocal trance track which encourages us not to let our dreams die inside of us. "Sun Launch" is a wake-up jam with happy hardcore elements and a re-arranged vocal schema from RA NRG's "Shine Through". "Emergence" takes us on a progressive breaks high, which culminates into "Omega Factor" engendering the spirit and voice of Terence McKenna, exciting that a cultural transformation is inevitable. Soundation ends with a juxtaposition of peaceful melody and war-like tribal percussion in "Nuit." Emmanuel has been creating electronic music since 1992. In 1993, he attended Carnegie Mellon University's Summer Pre-college Program for Composition. He also attended Penn State University and received a diverse education of philosophy, art, music and physics. Emmanuel performed under the various aliases of: Kid Ritual, Diocletian, Baby Blue or dj Blue, but now just as Emmanuel.
