Modern Progressive Hard Rock with an emphasis on vintage keyboards and strong songwriting. 21 MP3 Songs

**ROCK:** Progressive Rock, **METAL:** Progressive Metal

**Details:** Keyboard virtuoso and producer extraordinaire Erik Norlander proudly announces the release of his brand new rock opera, *Music Machine*, a double CD concept album about the dramatic rise and fall of a genetically engineered rock star. With a full compliment of world-class musicians including Buck Dharma (Blue yster Cult), Vinny Appice (Black Sabbath, Dio), Gregg Bissonette (ELO, David Lee Roth, Joe Satriani, etc.), Virgil Donati (Steve Vai, Planet X, Ring of Fire), Mark Boals (Yngwie, Ring of Fire), Tony Franklin (The Firm, Blue Murder, Whitesnake), Kelly Keeling (MSG, Blue Murder, Heaven and Earth) and many others, Erik's *Music Machine* project is epic both in scope and sound. Erik Norlander has created some of the most enchanting rock music in recent years appearing on over 25 albums since 1993 with his diva spouse Lana Lane, his band Rocket Scientists, his own solo albums and guest appearances on CDs by Mark Boals, Ayreon, Star One, Neil Citron and many others. Erik's evocative synthesizer technique is reminiscent of the legendary Rick Wakeman, Keith Emerson and Jon Lord while still very unique and forward moving in its own right. Erik takes many of the classic riffs and phrases of his hero masters and reinvents them with highly emotional pitch bending, vibrato and authoritative phrasing. This technique combines brilliantly with Erik's mastery of sound and production. Erik has personally led sound design efforts on several major brand synthesizers, and his knowledge of synthesis and audio engineering are second to none. Erik's perpetual live use of vintage instruments such as Hammond organ and Moog synthesizer give his concerts a depth and authenticity of sound seldom seen in modern stage productions.
