Show all album songs: Yesterday's Gone Songs Details: Frazer Has a Philosophical outlook that stems from his upbringing in the wild Highlands of Scotland where his early years in a one room school with one teacher, and a dozen or so school mates, developed a strong sense of community. Frazers earliest memories are of his mother singing to him, and Ceilidhs permeating in the background of his everyday life. In the Highlands, inspiration presented itself with every soaring view from misty mountain tops, or castle ruins echoing to ancient battles. Fairburn Castle was one of Frazers favourite childhood playgrounds, and later inspiration for the haunting song Damn you all. And Yesterdays Gone is the flagship promotional Single on his Debut Album
