[DOWNLOAD HERE](#)

Solo acoustic guitar, highly improvisational, with elements of Irish, old time, and middle eastern music blended together. Lots of mellow here. 17 MP3 Songs FOLK: Traditional Folk, EASY LISTENING: Background Music Details: J. Bradley Collier has been playing a variety of instruments with a variety of bands for quite some time, but this recording finds him doing what he does most: sitting by himself with a guitar, letting the music happen. Having worked with ensembles playing music from around the world, J. Bradley brings touches of Ireland, Spain, the Middle East, and the Appalachian Mountains to his solo guitar playing. This is the music of a person who is playing for the sheer love of playing. As he says in his liner notes: "Anyone who knows me knows that this is just what I do."
