Long and short-length works designed for the digital ensemble. A blend of classical, world and post 20th century art music. 10 MP3 Songs ELECTRONIC: Virtual Orchestra, CLASSICAL: Contemporary Details: Futurist Alvin Toffler has said there are three cultures in the world at the present: The Agrarian, which began with agriculture about 10,000 years ago, the Industrial, arising in the late 1700s, and the Digital, which is now sweeping our planet with new economies, new technologies, and new art. My music is an intersection of fine art and high technology. Though classically trained as a composer, my music has influences from many countries and cultures. I work in the medium of the virtual orchestra--digital musical tools that composers can now use to create new orchestral music. If you like music that is challenging, complex, abstract and that appeals to the mind as well as the heart, you will find value in this compact disc recording. Jerry Gerber San Francisco, California
