Strong, organic, lyrically driven acoustic rock with flavors of roots and folk. 8 MP3 Songs ROCK: Acoustic, FOLK: Modern Folk Details: If you listen to music and lose yourself even when you don't know what the hell the artist is talking about then I'm with you. No matter what style I find myself stunned by an artist that gives me truth and with their truth I feel them and understand completely. My favorite musicians at some point during their careers have fired me up or moved me to tears. There's nothing new under the sun. Nobody's music is completely unique. But I along with the musicians who played on this CD put our hearts in it. We are proud of what we have created. I wrote these songs free of the bullmake that I let ruin my days. They represent moments that I hope you can relate to so they may fire YOU up or at least help you get to where you need to be.
