Steph Furness is the founder of Aviatrix Productions, a record label/artist community/distro/pr engine based in New Hope, PA, on which she currently has two recordings. Steph sings candidly of her life experiences and welcomes others to relate their own. She has opened for nationally-renowned artists such as slam poet Alix Olson and Wishing Chair, and received a "Your Vote Your Choice" award in 2002 for her song, "Build it Up" from her debut CD, "aviatrix". Steph has been singing in front of audiences since age 6 and claims voice as her first instrument. Her guitar and songwriting styles are ever-evolving, and have grown to include blues, rock and punk. Steph's second recording, "Warm Blanket - EP" will be out April 1 and available at cdbaby.com. "Energetic guitar, refreshing lyrics." [Amy Emerman, Singer-Songwriter and Indiegrrrl] "Very few sounds are as beautiful as those that Steph creates with her guitar. She has a gift of being able to transport her musical visions right to our hearts. I love listening to her music. One feels like they are peeking into the pages of her journal and her life."
