If you love Eminem...youll HATE SteviePetie. Heart music...going deep to that place...The garden where you and your lover...played...remember? Wanna go there again? 15 MP3 Songs POP: Power Pop, METAL: Alternative Metal Details: Turn up the volume...for this kick ass muse!!!! SteviePetie sounds like a cross between Elton John and Journey... It just sounds so fresh...and new! Who is this guy? SteviePetie???????????? crippls...reviewer---- I played it really loud in my car yesterday..and opened up the windows....it seemed to really wake up this dead-ass neighborhood!!!! spockyboy...reviewer---- ...people were looking and actually liked what they heard! Ive got these really nice woofers....just turned it up... tou-shay....rap music!!!!!!!!!!!!!!!!!!!! kidrock...reviewer---- Great Music! Listen to it! This music is for people who are looking for something. Try it you just might like it! Steviepeties music touches peoples heart in exactly the place that is so important...love! Its not so complex but just enough to suggest theres something more to this music than meets the ear. His voice seems to suggest a person lifted up into some other world...in his song on a Sunday...has no one religion in mind but seems to encompass anyones belief without being too preachy or ridiculous like that. headjiber...reviewer---- His music also seems to suggest a kind of delicacy in his songs...theyre not boisterous or mean songs... they seem to try to remember the best of what people are. For example the song down in the meadow...makes you seem to experience what a perfect relationship could be...of course with the humility that nothings perfect. noname...reviewer---- Youll definitley be hearing more about SteviePetie... this reveiwer thinks that he has mastered that special something thats lacking in music today. candygyaru...reviewer---- Highly recommended...just great music. prof.smith...reviewer---- His instrumental...FEEL just floats in the air... noname...reviewer---- Just loved that...feeling. I couldnt believe that I could even dance to this... Alot of his music has some really cool zips and zaps aeofgi1894...reviewer---- Wow....What a great peice of
