" 'I Believe' dreams do come true" and we hope you enjoy ours; a compilation of traditional and original children's selections done in unconventional styles, including classical, jazz, rap, rock and country that parents love too. 22 MP3 Songs KIDS/FAMILY: Children's Pop, POP: Quirky Details: "I Believe" is a compilation of children's music that includes both traditional and original songs; including, "Itsy Bitsy Spider", "Shoo Fly", "Little Bunny Foo Foo", and "Wheels on the Bus" to name a few. All have their own unique style. Our music is arranged in ways that are unconventional, and reflect many different types of music from classical to jazz to rap, and more. The pieces are performed in a way that they can be enjoyed by children of all ages, as well as their parents. THINK BIG is the name of the group that performs the CD. We, as a performing group, have been inspired to help give back to music education, what we were exposed to throughout our childhoods. We did this by donating a percentage of our net profit to VH-1 Save the Music Foundation for Music Education in our schools. We are a group of nine child educators that teach music to children ages 2 months through the primary grade levels, who have seen first hand the importance of the intervention of music in a child's life. Some of our success has been a spot on PAX television performing the title song, and a commission from a regional theatre group to write a children's musical linking the music on our CD. This musical was met with great success by enthusiastic audiences in the NY, Tri-State area. We hope you will thoroughly enjoy our CD, and have as much fun listening as we had creating it!
