\*...uplifting, adventurous and inspiring music set in a fantasy world of Mediterrane and Anatolia. Get ready for 54:27 min. of DYNAMIC, ELECTRONIC and EXPERIMENTAL FUSION ...\* 8 MP3 Songs WORLD: World Fusion, ELECTRONIC: Virtual Orchestra Details: Turkish-born composer/performer/producer/DJ Ugur Dogan prefers to create his own palette of tonal colors and textures, combined with more familiar sounds, to produce something new. Sequenced rhythms constantly evolve: unfolding, collapsing, climaxing into polyrhythmic bliss, all without losing its' meditative nature. Clearly, Ugur Dogan lived and breathed this philosophy in making this CD. An essential addition to any collection of Electronica, Ambient, Space-Rock, and/or Meditation music. \*E.O.M. Evolution Of Media Entertainment\* The music has a certain depth musically that is somewhat ethereal and intriguing. Drawn into the eerie and foreboding sounds I feel like I'm entering a meaningful tribal experience. Dramatic and colorful the music is full of feeling and emotion that is clearly drawn upon from deep within. \*Space Junkies Magazine\* "Gam I Azad" is a good example of the excellent imagination of this artist. \*Amazing Sounds\* Ugur Dogan is not only a Turkish-born DJ, but is also a composer and performer in his own right. He loves to explore the different paths of electronic music. He accomplishes this by using the potential instrumental sounds to compose new music with improvisation and constant experimentation. Ugur is searching for a voice in his musical universe and he knows how to explore the instruments he likes to play. \*Jazzreview\*
