Comes with two UNANNOUNCED BONUSES! Ever wanted to have a big army of affiliates promoting your products for you? Supercharge Your Affiliate Recruitment and Training Efforts With These Easy and Powerful Affiliate Pages! The job of this product is simple... to help you put together quality affiliate recruitment pages and affiliate training pages, and to help you do it fast. With your affiliate pages you're basically trying to do 2 things: Part 1: Affiliate Recruitment page: This recruitment page is like a mini sales letter for your affiliate program, and you need to "sell" people on choosing you over everyone else. What sets you apart from the competition? What kind of commissions are you paying out? When is your launch? Where do they sign up? You have to address all these questions and present them in an easy to digest way to your potential affiliates. The easier and faster they can digest all this information the better. And that's exactly where the first part of my package comes in... The first template is the Affiliate Recruitment page, and it will help you sell your affiliate program just like I mentioned above. Here's how each element flows to reach the final outcome... Your own logo or header (for branding) == Hard hitting headline == Launch date == Quick intro paragraph == Your sales funnel and commissions breakdown in visual format == Descriptions of products in your sales funnel == JV contest prizes in visual format == Affiliates already on board list (social proof) == How to sign up. And you can add any other extra text and details anywhere you see fit. A few key points to remember: -You can use any of your own header or logo images at the top of the page. -You can resize the template to any width (500 pixels, 700 pixels, 900 pixels, etc...) -You can use any color or image for background. -You can change all text to say whatever you want. -You get a really nice visual image for the commissions your affiliates get, which is in PSD format so you can: modify the text to fit your own prices, change the fonts, change the colors of every element you see, move things around, resize things, and do pretty much anything you want. -The JV contest image is also in PSD and you can also modify it fully. -You can insert ANY affiliate signup form you want from any affiliate program or script. Or you can insert a simple autoresponder form to just add your affiliates to your list. Part 2: Promotional Materials page: This is the page you send your affiliates after they sign up. After you "sell" them on joining the affiliate program... you have to make it very easy for them to actually start promoting your stuff, and that's where this page comes in. Here they get their affiliate link, affiliate promo tools (like emails, blog posts, banners, etc.) and any other details you might have for them. Here's an important thing to remember: Your affiliates don't want to do too much work, and they have many other affiliate programs to choose from. The simpler you can make it for them, the

happier your affiliates will be, and the better results you will both get. So how do you make it simple and easy for your affiliates? By using the "affiliate tool brander" included in this package. Here are its top features: -Instead of giving your affiliates tools that say: "insert your affiliate link here" or "change xxxxx to your affiliate ID", now your affiliates can type in their affiliate ID (or username) into one form, hit the brand button, and ALL their tools get branded automatically! -This script works with ANY affiliate program script (ClickBank, PayDotCom, Delavo, RAP, 1ShoppingCart, etc.) -The script can be used with any affiliate link format: yourwebsite.com/yourproduct/AFFILIATEID.html yourwebsite.com/AFFILIATEID/yourproduct.html yourwebsite.com/234658263/AFFILIATEID.html AFFILIATE.VENDOR.hop.clickbank.net And any other variations. -The script is also very easy to use. You will still have to create all the promo tools yourself like the email ads, banner images, etc., but once you have all the promo tools ready it's very easy to make them "brandable". All you need is a beginner understanding of HTML and being able to follow a few simple instructions. BONUSES: BONUS#1: 21 Header Graphics Templates - FULLY Customizable! (PLR): This package contains 21 header templates in .PSD format and .JPEG format (blank), plus 21 sample templates in .JPEG format. These 21 headers are FULLY Customizable! BONUS#2: To make the deal even sweeter for you, we are even including two unannounced bonuses with it! Only those who purchase this product from us would be able to get the bonuses at NO cost! So what are you waiting for? Order today. 30-day money back guarantee! In case you are not 100 percent satisfied with your purchase, simply contact us within 30 days of your purchase and we will refund every penny! No questions asked!
