Ironic, mind-numbing and explosively danceable, this album is a guilty pleasure as subtle as a pie in the face. 10 MP3 Songs ELECTRONIC: House, ELECTRONIC: Progressive House Details: Kamberov Denis whose artistic pseudonym is 3style-boy is young and promising composer, who is very passionate and devoted on music itself. Although he is born in Bulgaria, he moved in Belgium, where today he develops his music career. This is the place, where he obtains knowledge and inspiration for his music creativity. His passion is cutting edge electronic music and to be more specific House music - genre that comes out with the development of the new computer technologies in the sphere of music. His music is modern and contemporary, but still has unique shade that can be easily recognized, once you get in touch with it. His debut album Electro House offers plenty of progressive beats, bin-throttling bass, air-sucking analog sweeps and stuttering vocodered vocals. In addition he included a special track Tears of Istanbul, that meets deep electro style with far East world genre this mixture will really stands out and sticks right inside your head. MUSIC QUOTES Imagine taking some of the best stuff out of the old school sound and merging it with a current club scene. This is perfect dance music for a club with heavy bass and over the top synth sounds. The whole album stretches to sound like a club compilation. It sounds so original and really stands out among other Djs who are jumping over to the mainstream sound. Not to say there aren't any vocals here, but they all sound like a robotic dance instructor who is forcing you to move. Highly recommended for Club Heads. Ironic, mind-numbing and explosively danceable, this album is a guilty pleasure as subtle as a pie in the face. - AMAdea Records, BULGARIA People who are interested in Benny Benassi Fedde Le Grand should consider this download.
