Newest record produced by Joe Dunphy. A heavy-duty dose of folk-rock songwriting with plenty of musical lyrical commentary... Backed up by some of the finest players in Canada. 10 MP3 Songs ROCK: Folk Rock, ROCK: Americana Details: _____ Perpetually (these days somewhat redundantly) being called a 'New Dylan', perhaps the heaviest comparison there is in the world of singer/songwriters, and definitely something to be taken with a grain of salt (or sand...) the release of his newest record "SUNSET ON THE HIGHWAY" proclaims (no wait, trumpets) that this little dude from Canada has found that weird wonderful place where great traditions a personal vision are fused... From the majestic opening track "ONLY YOU" to the gypsy-blues closing number "HOME", Denwood combines a deep lyrical gift with the musical support of some of the finest brokest players of his generation...Originally from Toronto, Canada, Denwood spent his early years in Toronto Montreal before heading south to the legendary town of Woodstock NY, where he was able to polish and develop his roots appearing on stage studio with the likes of Levon Helm, Garth Hudson, Rick Danko the other members of the legendary rock group, The Band while also appearing on the same bills with NRBQ, Joe Henry, Dave Van Ronk, Paul McMahon(CDBaby artist!) Chris Smithers...NYC venues included The Bitter End,CBGB's,The Baggot Inn Downtime... Seven years later, after being most unceremoniously thrown out of the United States for some kind of illegal alien rap (read the Gary Alexander article...) back in his hometown, Denwood hooked up with Juno-winning producer Joe Dunphy (TriContinental w/ Lester Quitzaw, Bill Bourne Madagascar Slim) to produce a live album "THE EXILE SESSIONS" Live at the Old York(2000) later started construction of Monumental Sound and began recording again in early 2001. Now, after many hours of hard work "SUNSET ON THE HIGHWAY" has burst through onto the scene landed amidst the immortal pantheon of great mythical folk/rock songwriter albums....(we're not making

this up...) Most recently reached #2 at CFBX FM (Kamloops BC) is spinning on various CBC shows as well as the legendary WKZE out of Sharon, Conn. some others...God bless them each every one... Favourite venues in TO include The Old York the Horseshoe Tavern.... Clayton Denwood makes no apologies for his dedication to the high standards laid out by his musical forebears for after all in his words..."It's a big impossible mountain to go around I sure ain't the only one but at least they'll know whose side I'm on...". _____ "It's perplexing to find such stellar young performers such as Denwood still fishing for a label connection" Irv Yarg-Woodstock Times _____ "They were by far one of the best bands booked at NXNE 98 ! It was such a unique original mix of music that every body at the club seemed to do a double take from the first bars they played.This guy's CD should sell like fajitas in Tijuana !" May Lebrun-The MusesMuse.com _____ ****Liner notes for Sunset on the Highway**** So the wind blows the rains fall out on the dust where integrity hoists a tattered flag. I've been through a long summer watched the autumn fall burn never thinking that I'd see this day. They used to sing like outlaws for all the gold silver their hands could carry...now it's just an empty game...a club where only the absurd need apply. The carrot stick routine, the impossible dream...(maybe it always was) Out here where there's no pressure no mask it's easy to just sit watch while the whole thing passes on into the light. Like a parade of archetypal strangeness crawling down the disposable street. I never thought it'd come to this but I'm gonna make that stretch say that it's time to reel in the lines cast a whole new net. There's a lot of fish in them deep waters the moon's gonna guide the way...CD 2001.
